

CATEGORY 1 FACE SHIELD

Designed with comfort as well as protection in mind, the GV Health Disposable Face Shield is lightweight enabling it to be worn for long periods without fatigue.

The optically clear anti-fog film utilises technology from the food industry to provide a wide and clear field of vision. An adjustable band enables the face shield to fit all head sizes and positions the face shield away from the face to allow wearing of glasses/eye protection and face mask.

Features:

- Conforms with Regulation (EU) 2016/425 - Personal Protective Equipment (Classification: PPE Cat I)
- Keeps dust, water and chemicals off clothes and skin
- Fully adjustable to fit all
- Manufactured on a BRC AA certified site
- Protective anti-fog screen for the face
- Compatible with other types of PPE such as eye protection or face masks
- Encourages social distancing
- Reduces the risk for the wearer of touching the face
- Reduced risk of direct liquid splashes coming into contact with face
- Lightweight and easy to fit, with adjustable headband
- Label area for name to be written to help customers or colleagues easily identify the wearer
- Manufactured in the UK
